RE: AST Permit Renewal Extension

Based on the impact of COVID-19, KDHE is extending the annual AST permit renewal deadline to January 30, 2021, for the upcoming 2021-2022 permit cycle. This deadline has historically been no later than December 31st of each year, but due to the pandemic, KDHE understands the need to extend the deadline in these uncertain times.

AST owners are encouraged to continue to submit their registration documents and payments in a timely manner and utilize the departments new online database system. A letter was mailed to AST owners in November with instructions on how to access the database using an owner-specific verification code.

This extension is only for this renewal period and is relevant to the COVID-19 pandemic.

If you have questions, please email us at kdhe.tankinfo@ks.gov and we will reply as we are able. You may also reach us at (785) 296-1678.
